Email Privacy Policy

We created this Email Privacy Policy to demonstrate our firm commitment to your privacy and the protection of your information.

Our Mailing Lists

Our mailing lists are permission based. If you receive a mailing from us, you have either (1) opted-in to our mailing lists under your own volition, or (2) supplied your email address under your own volition directly to us via registering or enrolling as an Associate with Pyxism. Under these circumstances, you have an existing business relationship with us. We do not send messages to individuals who do not fall into these categories. Our messages are only intended for email addresses on our mailing lists and only intended for email addresses enrolled in our Associate Database.

Automatic System Notifications

Our System emails automatic notifications to you to notify you of various system functions, such as informing you when a Prospect has requested you to contact them. In those cases, email messages are sent from Pyxism@Pyxism.com. If you do not wish to be automatically notified of such information, please login to your Back Office under the Profile tab and select the check box 'Do Not Send Automatic System Notifications'. You will no longer receive automatic system notifications.

Internal Message System

Associates have the option to send messages directly to their Downline via the Back Office Message System. In those cases, email messages are sent from Upline@Pyxism.com. If you do not wish your Upline to send messages directly to you from the Back Office Message System, please login to your Back Office under the Profile tab and select the check box 'Do Not Send Messages'. You will no longer receive messages from your Upline via the Back Office Message System.

How to Subscribe to our Mailing Lists

If you are a Paid Pyxism Associate, you may self-subscribe to our Corporate News Mailing List and/or our Travel Deals Mailing List by the link box in your Back Office.

How to Re-Subscribe to our Mailing Lists

If you have been removed from our mailing lists, either intentionally or un-intentionally, you may send a request for instructions to re-subscribe to our mailing lists by sending an email to Help@Pyxism.com.

How to Unsubscribe

Each email we send contains an easy, automated way for you to cease receiving email from us. If you wish to unsubscribe from our mailing lists, simply follow the Unsubscribe or Update Profile links at the end of any email.

Inability to Unsubscribe

If you select the Unsubscribe link in one of our emails and an email address other than your email address is listed on the unsubscribe page, this means that your email address is not on our mailing list; you cannot unsubscribe from our mailing list if you are not subscribed. If this occurs, it means you have been sent our message from a third-party sender. If you continue with the unsubscribe process, you will not unsubscribe your email address (as you are not on our mailing list); you will only unsubscribe the email address of the third-party sender. This action by you will not result in the third-party sender ceasing to send our messages to you; it will only unsubscribe the third-party sender from our mailing list. The third-party sender will not be informed you have unsubscribed their address from our mailing list, and the third-party sender may still continue to send you our messages. If you encounter this situation, please forward a copy of that email with your comments to Spam@Pyxism.com for review.

Third-Party Senders

Our messages are sent from News@Pyxism.com or Travel@Pyxism.com and are only intended for email addresses on our mailing lists. If you receive a message from an email address other than News@Pyxism.com or Travel@Pyxism.com you received our message from a third-party sender; we did not send a message to you and you are not on our mailing lists. If you wish to be removed from the third-party sender's mailing list, please make your request to the third-party sender or forward a copy of that email with your comments to Spam@Pyxism.com for review.

Notice to Third-Party Senders

Our messages are delivered to email addresses on our mailing lists, and are only intended for email addresses on our mailing lists. If you receive a message from News@Pyxism.com or from Travel@Pyxism.com and then forward or send that message to another individual, you are acting as a third-party sender. In such cases, if the recipient of your message wishes to unsubscribe from receiving our messages, they will not be able to do so as they are not on our mailing lists. In those cases, the recipient of your message may report our Company as sending them a Spam message. In addition, if they continue with the unsubscribe process, they will not unsubscribe their email address, but will unsubscribe your email address. In the event you wish to forward or send our messages to other individuals: (1) they must have previously requested to receive messages from you regarding Pyxism, (2) you must provide them a mechanism to opt out from receiving messages regarding Pyxism from you, (3) you must remove our Company's email addresses (News@Pyxism.com and/or Travel@Pyxism.com) from the message, and (4) you must remove the Unsubscribe link and/or Update Profile link from the message. The only exception to (3) and (4) is when a 'Forward this Message' link is listed at the bottom of the message; in such cases, you must use the 'Forward this Message' link to forward the message.

Reporting Spam

Spam is commercial email or unsolicited email which has not been requested by the recipient. Spam messages are the opposite of permission-based email which are normally anticipated, personal, relevant, and/or associated with a pre-existing business or personal relationship. Our mailing lists are permission based. If you believe you received unsolicited email from News@Pyxism.com or Travel@Pyxism.com please forward a copy of that email with your comments to Spam@Pyxism.com for review.

Messages we send to our mailing lists are classified as Transactional-Relationship emails, and as such, are legitimate messages and not spam. If you received a message sent to you from News@Pyxism.com or Travel@Pyxism.com you received a legitimate message from us, and as such, our messages should not be reported as spam. If you report a legitimate message as spam, you are allegedly making a false spam report.

False Spam Reporting

We fully support the efforts of various organizations which work to responsibly eliminate spam activities. However, if an individual has opted-in to receive email from us and/or has supplied their email address via registering or enrolling as an Associate of Pyxism, and then such individual falsely or maliciously files a spam complaint against us, we will cooperate fully with the appropriate agencies and file the false spam report incident with the proper authorities. In addition, if our investigations confirm such individual has filed a false spam report against us, we will remove such individual from our Associate Database, and any and all Associate Rights for such individual will immediately cease.

Reporting Third-Party Senders as Spam

We are not responsible for the mailing of any third-party sender who forwards our messages. However, if you believe you received an unsolicited message from us via a third-party sender, and you wish to report the third-party sender as spam, please forward a copy of that email to Spam@Pyxism.com for review.

Your Privacy Protection

We use appropriate security measures to protect against the loss, misuse, and alteration of data used by our system.

Sharing and Usage

We will never share, sell, or rent individual personal information with anyone for their promotional use without your advance permission or unless ordered by a court of law. Information submitted to us is only available to Corporate Personnel managing this information for purposes of contacting you or sending you emails based on your request for information and/or based on your existing business relationship with us, and to contracted service providers for purposes of providing services relating to our communications with you.

Contact Us

If you have questions or comments about this Email Privacy Policy, please contact us at Privacy@Pyxism.com. By enrolling as an Associate of Pyxism, you acknowledge acceptance of this Email Privacy Policy in effect at that time of use.
